

LIQUOR MEN FILE CONTEST

Rely on Election Called by County Judge Chenault in Three City Wards.

Under section 2566 of the Kentucky statutes, which authorizes any number of citizens of the county, not less than ten, to be known as the contestants, to contest any local option election, Messrs. D. N. Young, Teddy Minihan, J. P. King, A. L. Laughlin, P. H. Davis, Mike Holland, E. B. Gibbons, J. H. Withrow, William Rynn, Joe Carter, Frank Gibbons, G. B. Biedleman, Frank Young and J. A. Walch filed Saturday with County Court Clerk Keller Greene written grounds of contest of the election held in Montgomery county on September 28th. The eight grounds of contest are in substance as follows:

1. That the recent Act of the General Assembly of Kentucky, commonly known as the new County Unit Law is unconstitutional and void because it deprives the contestants of their property without due process of law and abridges their privileges as citizens of the United States and denies them the equal protection of the law as is guaranteed them by the Constitution of the United States and the Constitution of Kentucky.

2. That said County Unit Law violates section 61 of the Kentucky Constitution by destroying the individuality of a precinct and attempting to make the county the unit to the prejudice of the precinct. That said law is also illegal because it permits twenty-five per cent. of the voters of an entire county to call for a submission of the question, instead of that per cent. in each precinct to be effected.

3. That said election of Sept. 28th. is illegal and void because the second, third and fourth wards of Mt. Sterling went "wet" on the preceding Saturday, which election was regularly called by County Judge Chenault and cannot be disturbed for three years.

4. That the voters of said second, third and fourth wards were entitled to and had declared themselves in favor of the sale of spirituous, vinous and malt liquors and the result on Sept. 28th was the will of the entire county and not the will of the voters of said three wards.

5. Because contestants have large sums of money invested in liquors and fixtures, which will be rendered nearly valueless and the sums paid by them to the United States and to the State of Kentucky for licenses forfeited without due process of law, said County Unit Law merely providing for a return of the unused portion of the license money by the "County, city, town, district or precinct to which the license money was paid." All city licenses expire Dec., 31st, 1914; all government licenses expire June, 30, 1915 and the State licenses held by the contestants expire at various times during next year.

6. Because said County Unit Law is indefinite in its terms and does not comply with section 51 of the Kentucky Constitution governing statutory amendments.

7. That said second, third and fourth wards went "wet" both on Sept. 26th. and 28th. and each constitutes a separate unit under the Kentucky Constitution and therefore the election held in the entire county is illegal and void.

8. That the petition upon which the county election was called is too general in its statements as to the petitioners qualifications as voters, fails to give their precinct residence and fails to give such information as would enable anyone to ascertain whether or not they were legal voters.

Under the statutes the contest will be tried "on the fourth Monday after the filing of the grounds of contest," which is November, 2nd, before County Judge Chenault, and Messrs O. W. McCormick and Frank P. Boyd, the two nearest Magistrates. Any number of legal voters not less than ten, to be known as the contestants, may resist by filing a statement with the County Clerk controverting the grounds relied upon by the contestants. The election is not effective until the certificate of the County Board of Election Commissioners showing the result is recorded and this cannot be done pending a contest. The new County Unit Law provides that "the law prohibiting said sale shall be in full force and effect at the expiration of sixty days from the date of the entry of the certificate of the canvassing board in the order book of the county court."

Judge Lewis Apperson of this city will represent the contestants and Judge Ed. C. O'Rear of Frankfort the contestees.

LARGE CROWDS ATTEND MEETING

Rev. Sid. Williams, of Texas and His Harpist Holding Great Revival Here.

Rev. Sidney J. Williams, of San Antonio, Texas, who is conducting the Revival Services at the Baptist church in this city, has held many meetings with large results, 1407 persons being added to the churches in Kentucky under his powerful preaching.

In Louisville he assisted pastors T. T. Eaton, M. P. Hunt and John T. Christian, receiving 423 into the fellowship of the churches of which they were pastors. In Owensboro, he assisted pastor Fred D. Hale, adding 301 to the Third church and he also held a meeting with the Calvary Baptist church, Lexington, when 101 persons were added to the church. With the close of the meeting here he returns to the Calvary church to hold a meeting with pastor T. C. Ecton.

Rev. Williams has held meetings with Baptist churches in 14 states and under his preaching more than 24,000 persons have been added to Baptist churches and thousands of others have professed faith in Christ and taken membership with other denominations. He is a wonderful preacher, and while here at Mt. Sterling our people have an opportunity to hear him and his gifted harpist and sweet singer. Much interest is being manifested at the meetings and large crowds are attending and much good being accomplished. At the services Sunday night the house was crowded to overflowing and many were unable to get inside the building.

Meetings continue during the week and over next Sunday. Preaching at 3:00 o'clock in the afternoon and 7:00 o'clock in the evening.

SELLS FINE FILLY

Mr. Nat Young, Jr., of this city, last week sold his fast filly, Mary V., to Mr. J. E. Goldberg, of Detroit, Mich. This filly has a yearling record of 2:23 3/4 and is a show horse as well. During the past summer she was shown four times and was returned the winner every time. She is the only yearling that has ever won the Junior Championship, which she did over two and three year olds.

She was the highest price horse sold at the sale, bringing \$3,500, and Mr. Young's many friends here will be pleased to learn that he sold her so well. She will be trained and raced next year by that famous reinsman, W. L. Snow.

Mr. Asa Bean, who has been manager for the past three years for the Burley Tobacco Co., in this city advises us that the house belonging to the Burley Tobacco Co., situated on the Levee pike will open about December 1st. Mr. Bean will be manager but has not yet selected his force.

BOURBON COUPLE ARE WED IN MT. STERLING

Mr. Bennett Taylor and Miss Fannie Hughes, both of Bourbon county, came to this city last Thursday evening and were married at the Methodist parsonage in the presence of a few friends. Mr. Taylor is a prominent farmer of that county and his bride is an attractive young woman. Both are highly popular in their homes. The wedding ceremony was performed by the Rev. T. W. Watts, pastor of the Methodist church here. The wedding was a surprise to the friends and relatives of the contracting parties.

WILL WE HAVE INTERURBAN LINE?

It is rumored on the streets promoters have been here looking over the ground etc., with the object in view of building an electric line from this city to Winchester and from there on to Lexington. We have heard this same rumor many times before.

H. B. KINSOLVING TO MOVE TO LOUISVILLE

Hon. H. B. Kinsolving and family are preparing to move this week to Louisville, where they will make their future home. Mr. Kinsolving will engage in the practice of law. He is considered an excellent lawyer and is a speaker of note and ability. He is considered a splendid lawyer and while his many friends wish him much success in the Falls City, they regret to see these excellent people leave Mt. Sterling.

LITERARY CLUB FORMED

The young women of this city met at the residence of Miss Paulina Judy, on West High street, and organized a literary club which has been christened the "Junior Club." A constitution was adopted and the following officers were elected: President, Miss Louise Lloyd; vice-president, Miss Paulina Judy; secretary, Mrs. Walter O. Hopper. The club will take steps at once to join the Kentucky Federation of Women's Clubs, and will hold monthly meetings.

THE WORLD'S SERIES

The Boston Braves and the Philadelphia Athletics, champions of the National and American Base Ball Leagues, respectively, have played three games and Boston has been returned the victor in all three contests—the first, by the score of 7 to 1; the second, 1 to 0, the winning run not being made until the ninth inning; the third, 5 to 4, 12 innings. The result of the fourth and deciding game (in the event Boston wins it) had not been learned at the time of our going to press.

THT WAR

During the past week Germany has captured Antwerp and made other advances into the Allies' territory. It is reported their next move will be to invade England. The Germans have been steadily gaining ground but the Allies retain their confidence and assert they are bound to win out in the end.

FISCAL COURT IS DEADLOCKED

Fails to Select County Road Engineer and Conditions Appear Chaotic.

The selection of a County Road Engineer seems to be a hard task for County Judge W. O. Chenault and the members of the Fiscal Court and things are now very much "up in the air" so to speak. The term of the present incumbent, Mr. Jno. S. Wyatt, expired October 1st, but under the law he is to hold office until his successor is selected and qualified. The law also provides that no one shall be eligible for the place who has not stood a creditable examination before the State Highway Department at Frankfort. A number of applicants had taken the examination before the Court met in October 1st, but Esq. Mart Wells, of Spencer, was the only one who received a certificate. Under the law the County Judge nominates and the Fiscal Court can either confirm or reject his selection. The Fiscal Court cannot, however, elect anyone whom the Judge does not nominate. The Judge in this way holds the key to the situation, yet he cannot make his selection without the aid of the Fiscal Court. When the court met the Judge declined to make a nomination and an adjournment was had until last Saturday to enable several prospective applicants to be examined, including several who had previously failed. When court again met it was found that none had secured certificates except Mr. Earl B. Quisenberry of the Howards' Mill neighborhood, and the Judge again declined to nominate and court was adjourned until its regular meeting in November. Just what will then occur is problematical, as it is said the Magistrates are equally divided. The examinations conducted by the Hon. R. C. Terrill, State Highway Engineer, covered the latest methods of scientific road building and it is said were quite difficult. The deadlock has caused much comment and many rumors

of broken promises, political intrigues and various sorts of deals fill the air.

The Advocate has no voice in the matter and we shall therefore express no preference, but we sincerely hope the most capable road builder in the county will be ultimately chosen.

Another examination will be held by the State Department sometime in November.

LOCAL FOOT BALL SEASON OPENS

The football season opened in this city Thursday afternoon when the clubs of Montgomery County High School and the Mt. Sterling High School met on the gridiron. The game was fast and hotly contested, but the strength of the latter team told, and they were the victors by a score of 13 to 0. A good crowd witnessed the game. The teams will play again next week and there is much rivalry between them.

CARING FOR THE

UNEMPLOYED

The question of caring for the unemployed during the approaching winter is under discussion in Chicago. At a recent meeting of the Municipal Markets Commission some differences of opinion were developed.

The president of the Board of Education said three new school-houses would be built during the winter. The Commissioner of Public Works said he would try to figure out a plan to keep the men employed in the Bureau of Streets at work all winter. Prof. Graham Taylor asserted that the city could provide work for the unemployed by carrying on extensive civic improvements. This proposal aroused unusual opposition and brought out the statement that while the city was able to care for its needy population, it was overburdened by "casual laborers who drifted into town from other points with visions of free lodging houses and meals."

This is a situation that has to be contended with year after year in the cities. The floating population of the country is large—just how large nobody knows. Those who compose it can manage to eke out an existence during the summer season by "working" rural territory and preying upon the small towns and villages, but with the approach of winter they gravitate back to the cities. There are no soup houses in the country, and the outdoor life is anything but pleasant with the advent of cold rains and snows.

The cities are heavily taxed by this roving class. To supply employment for such persons amounts to little more than a waste of money. Many of the nomads are incapable of doing efficient work, and others are unwilling except in direct extremity to perform any sort of labor. On general principles cities should not be burdened with their support but they represent a condition that must be dealt with in some way.

Mind your Own Business and you'll have a Good One.

Public Renting OF LANDS

About 1000 acres in Montgomery and Bath counties. As Committee of W. T. Fitzpatrick, I will offer at Public Renting, at the Court House door, in the City of Mt. Sterling, Ky., on

Saturday, October 17, 1914

at two o'clock p. m., the following lands, to-wit:

First—What is known as the "Bailey Farm," located on the south side of the Howard's Mill pike, about 4 miles from Mt. Sterling, and containing about 158½ acres of land. There is on this farm a good dwelling house, tobacco barn, which will hold about 6 acres of tobacco. Said land will be farmed as follows: Same land cultivated in tobacco this year (1914) to be cultivated in tobacco in 1915, containing about 8½ acres. The land cultivated in corn this year (1914) to be cultivated in corn in 1915, containing about 6 acres. Also the boundary, containing about 8 or 10 acres, in rye this year (1914) and lying north of the dwelling and between same and the pike, to be cultivated in corn in 1915. Privilege to enter said land for seeding purpose in the fall of 1915 is reserved. The balance of said farm to remain in grass and to be grazed.

Second—What is known as the "Howard's Mill Farm," located on the south side of the Howard's Mill turnpike, about 5 miles from Mt. Sterling and containing about 581 acres. Said land runs to Slate Creek; said land is to be farmed as follows: The same land cultivated in tobacco this year (1914) to be cultivated in tobacco in 1915, containing about 10 acres. The same land cultivated in corn this year (1914) to be cultivated in corn in 1915, containing about 32 acres. About 80 acres of timothy and clover meadow; balance of the land in grass. There are 5 tenant houses, 2 tobacco barns and one stock barn on this farm. Privilege to enter in fall of 1915 for purpose of seeding reserved.

Third—The Bath county farm of about 210 acres, on Slate Creek, has a dwelling house, outbuildings and a tobacco barn for about 5 acres. Said land to be cultivated as follows: About 5 acres in tobacco, to be selected by the said committee. About 25 acres cultivated in corn this year (1914) to be sown in rye, wheat or oats. The balance of land in grass. Privilege to enter this land in fall of 1915 for purpose of seeding is reserved by the said committee.

The renter of each of said farms is to cut the weeds and to do so by September 1, 1915, free of costs.

The renter is also to make any necessary repairs on fencing, the material to be furnished by the said committee. Tobacco stalks and all manure to be left on the land.

The rental period on each of said farms is from March 1, 1915 to March 1, 1916, the renter to execute notes with good security therefor.

The lands will be shown to prospective renters on application.

THE UNDERTAKER

A DEVELOPER

There are in many communities successful business men and farmers who stand like stumps in the highways of progress and in such a situation the Undertaker is an important factor in development. Scarcely a day passes that they do not add a new terror to death by refusing to join with public spirited citizens in a movement for the upbuilding of their community or by their indifference snag an industrial enterprise.

It takes live men to build a community and there is no sadder sight in life than a few noble spirited citizens staggering under a load of dead timber. The undertaker is oftentimes a developer.

WEBB-KENYON ACT VALID

The Webb-Kenyon act was declared valid recently by the Court of Appeals in reversing the judgment of the Laurel Circuit Court in the case of the Adams Express Company against the Commonwealth. A new trial of the case was ordered. The Adams Express Company had been fined \$75 for bringing into and delivering whisky in local option territory.

NEED MORE BARN

Lack of barn room in which to store tobacco is causing growers in this and adjoining counties considerable trouble. Farmers report that nearly all of the barns are full to overflowing and it is now too late to build additional structures before frost. The cause of this condition is the exceptionally large amount of tobacco this year, the crop making more than was expected. There is also a shortage of storks in many localities and the price of that necessity has gone sky high.

ASA BEAN ON BOARD

The annual meeting of the stockholders of the Burley Tobacco Co. was held in Lexington last week. About seventy-five were present, holding stock or proxies representing 348,000 shares. Five new directors were elected as follows: O. T. Troutman, Jessamine county; Ben F. Franklin, Hart; Edgar Jones, Robertson; Asa Bean, Montgomery. Other directors elected were the same as heretofore. Clarence LeBus was re-elected president, and J. M. Rankin, secretary.

REGISTRATION

A total of 893 men and three women were registered in Mt. Sterling Tuesday at the regular registration. The largest number of Democrats that have registered on the first day in years was recorded, 522 appearing. The Republicans registered 345; Independents, 18; Progressives, 5; Socialists, 1.

Character and worth are mental twins; born of wisdom and sired by the sum of centuries.

DOWN GOES FLOUR

What is believed to be the beginning of the end of "war-time" prices on food stuffs was recorded last week when millers announced a drop of forty cents per barrel on flour. This was the first decline in the price of flour since the European war began and may indicate a growing suspicion on the part of the grain dealers that the war is fast approaching a climax.

The retail price on the higher grades of flour is now \$6.80 per barrel, a drop from the former price of \$7.20 per barrel. The highest price for the staple was reached just a month ago following a record breaking fluctuation in the market and since that time has remained at the top notch.

In July of this year flour sold at a little over \$5 on account of an enormous wheat crop being in prospect.

It is generally believed now that wheat and flour prices will soon become normal again.

Everybody Should Know About the Neal Treatment For the Drink Habit

For the Sake of Someone You Know or For the Sake of Someone You May Come to Know, You
Should Be Well Posted in the Work That the Neal is Doing.

It is an Ethical Treatment discovered by Dr. Neal, who has devoted years of his life to the treatment of alcoholism.

The Neal Treatment is administered by regular physicians, specialists in their line, and trained nurses who are in charge day and night.

The Institute is open at all times to the investigation and visits of physicians, who may follow the treatment and satisfy themselves that all desire for alcohol in any form is destroyed and that every claim made is true in every detail. In fact, we urge you to have your tammy physician visit you while you are taking the treatment.

Physicians who have investigated, send their patients to the Neal Institute.

No patient is permitted to leave until he is satisfied and we are satisfied that he does not want liquor. In fact when he leaves, the very sight or odor of it is repulsive to him.

The treatment consists of a purely vegetable remedy taken internally. There are no hypodermic injections used, thus eliminating the dangers of an infected needle or the danger of forming a drug habit.

Dr. Neal guarantees the Neal Treatment does not contain Morphine, Opium, Belladonna, Hyoscyamus, Hyoscine, Cocaine, Strychnine, or Apomorphine but on the contrary it is tonic in its effect from the very first dose. Habit forming drugs are never

used. Consequently there are no injurious after effects.

We can guarantee that a patient, upon leaving the Institute is ready to go to business at once. It is not necessary for him to rest or build up before undertaking his business obligations.

The Neal Treatment is not an experiment; over 2,500 cases have been treated in Ohio and many thousands in the United States. Sixty Neal Institutes now administering the treatment; more are constantly being opened.

There is plenty of living evidence right in Ohio as to the splendid results accomplished by the Neal Institute.

We are the only institutes in Ohio treating exclusively the Drink Habit. We do not treat the Morphine, Insane or Nervous cases; consequently the patients' associates are pleasing.

There are no disgusting sights; no straight-jackets or padded cells. No restraint of any kind is used in the Institute.

The Neal Institute is a home-like place. Every objectionable feature has been eliminated and everything possible done to make the patient comfortable. Appetizing meals are served in the patient's private room.

Absolute privacy may be enjoyed or the patient may mingle with the others in the Club Room or he may enjoy the use of the library containing many volumes.

The Neal Treatment is a r-

tional treatment, neutralizing and eliminating the poison which causes the craving for liquor. Alcoholism is a poisoning, not a disease. We not only remove the desire but we cause a revulsion for anything containing alcohol.

The Neal Institute holds sacredly confidential the names, records and communications of all patients and prospective patients.

The names are never used in testimonials or any other way.

75 per cent. of our business is sent by former patients.

50 firms after careful investigation are sending their employees for treatment.

South Australia, after sending envoys to the different countries throughout the world to investigate the liquor treatments, endorsed the Neal Treatment.

Relatives and friends can visit you at any time.

We do not buy business. We get it from results. No commissions are paid to anyone.

We are thoroughly reliable, being an incorporated company with a paid in capital stock of \$10,000. We are here today and will be tomorrow. For references refer to Dun, Bradstreet, Fourth National Bank or any other business concern in the city.

You do not have to pay for the treatment before you receive it. Satisfy us that you can pay, take the treatment and if satisfied pay at the end of the treatment.

RESULT OF FREQUENT CHANGE BY FARMERS

An official of the Federal Census Bureau, in discussing the report recently issued by the government dealing with the term of occupancy of farms in the United States, said:

"This frequency of moving from farm to farm, or instability of occupancy, very likely, forms one of the chief causes for the decline of rural prosperity, or is a hindrance to greater progress. Frequency of removal of farmers results in general shiftlessness; the roads and bridges are generally in a poor condition because the farmers, moving at frequent periods, are not particularly interested in their upkeep. Farm buildings of such farms are not usually kept in good repair, as the farmer who is about to move will leave the repairs for the next tenant to make. The same reasons will apply for lack of interest by the 'unstable' farmer in the schools, churches and general welfare of the community. They move frequently, they do not remain on a farm long enough to get the best results from it, consequently they are usually in a poor financial condition."

You may be entitled to the benefit of the doubt, but the chances are you won't get it.

ENGLISH ANDERSON HURT

Mr. S. English Anderson, of the Sideview neighborhood, was seriously hurt at his home last Tuesday night. He was at work with his silo machine cutting corn for filling the silo when the blower became stopped up. Placing his right hand into the mouth of the blower with the intention of taking the corn out the machinery was started and his hand being caught it was horribly mashed, the flesh being torn from the wrist and the ends of the two large bones mashed considerably.

A FACTORY ON THE FARM

A silo is a factory on the farm and therefore lends itself to co-operation of the commercial and agricultural interests. The farmer gets the profit of both producer and consumer.

We need more of these twin agencies of prosperity on the farm of Kentucky and business men cannot render a better service to their communities than in encouraging the building of silos. The silo is a great business educator. It arouses the spirit of enterprise, develops business ingenuity and awakens the joy of ownership.

A farmer can build a silo for two or three hundred dollars, and it will, under ordinary conditions, pay a dividend of 40 per cent. where it is run to capacity.

For many years he was pastor of the Old Presbyterian church in this city and conducted a school on West Main street where Mr. I. F. Tabb's residence now stands and which was attended by many of our well known citizens of today. Rev. Leonard has made his home with his daughter, Mrs. W. L. Lyman, at Columbia for many years and this is his first visit to Mt. Sterling since 1899. Mrs. Lyman is preparing to remove to Fulton, Mo., and Rev. Leonard will remain here until the change has been affected. Rev. Leonard's mental faculties are not in the least impaired by his four-score and four years and his sparkling wit and mellow reminiscences of his residence here are a delight to all.

Red blood is the signal of beauty—but a blush is not necessarily a Guide Book to Bliss.

R. A. CHILES SUCCEEDS R. P. WALSH IN COUNCIL

Mr. R. A. Chiles, well known attorney and popular Democratic leader, was elected last Tuesday night by the City Council as a member of that body from the Second Ward to succeed Mr. Robt. P. Walsh, who resigned because of his removal to Paris. Mr. Chiles is perhaps the best posted man in the city on municipal government and has had long experience in a legal way with local public affairs. He is thoroughly qualified to make a valuable member of the City Council.

The meeting Tuesday night was not a very important one aside from the election of Mr. Chiles. R. L. Coleman was granted a permit to erect a magnificent two-story residence on his lot on North Maysville street.

INFORMATION ABOUT KENTUCKY FARMS

(From last Census Reports)
Kentucky has 259,185 farms; of this number 171,325 are operated by owners and managers and 87,860 by tenants.

Sixty-six per cent. of the farms of this State are operated by owners and managers and 34 per cent by tenants.

The farm home owners and managers of Kentucky cultivate 11,261,000 acres of land and the tenants till 3,093,000 acres in this State.

The value of the land and buildings of the tenant farms of this State is \$153,785,000; that of the home owners and managers is \$481,675,000.

KENTUCKY FARMERS MOVE FREQUENTLY

In compiling data for the last Federal Census, the enumerators asked every farmer in Kentucky this question: "How long have you lived on the farm you now occupy?" This question was answered by 234,050 of the 259,185 farm operators in this State. More than 70,000 stated that they had occupied their farms only one year or less; 53,176 from 2 to 4 years; 37,487 from 5 to 9 years and 72,585 10 years and over. The most restless class of people in this State is the tenant who operates his farm on the share basis.

Beecher did not wait for a call
to a large church with a big
salary. He accepted the first pas-
torate offered him, in a little
town near Cincinnati. He be-
came literally the light of the
church, for he trimmed the lamps,
kindled the fires, swept the rooms,
and rang the bell. His salary was
only about \$200 a year—but he
knew that a fine church and a
great salary cannot make a great
man. It was work and opportuni-
ty that he wanted. He felt that
if there was anything in him,
work would bring it out.

SOCIAL EVENTS

Mrs. James Gatewood enter-
tained the newly organized
Bridge Club at her beautiful
home at Ewington last Friday
afternoon. The games were
most interesting and a delicious
luncheon was served.

Mrs. Henry Judy enter-
tained with a Rook party
Wednesday afternoon at her
handsome home on North
Sycamore street. About thirty
guests were present. A splendid
luncheon was served.

Miss Mary Ray Trimble enter-
tained with a reception at the pa-
latial home of her parents, Mr.
and Mrs. Robert M. Trimble, on
West Main street, Tuesday after-
noon from four until six in honor
of her guest, Miss Mick. The
home was beautifully decorated.
About one hundred guests called
during the afternoon.

Mr. and Mrs. L. E. Griggs enter-
tained at dinner Thursday
evening in honor of several
friends from Florida, among
whom were Mr. and Mrs. David
G. Howell, of Palatka, Mrs. Bet-
tie Dorsey, of McIntosh, Mr. and
Mrs. Thos. D. Jones and Mr.
Whitfield Wilson, of Tampa.

One of the prettiest events of
last week was the Euchre Thurs-
day afternoon at the home of
Mrs. Howard Barnes Turner.
The house was beautiful with
decorations of plants and vases
and baskets of dailies and chrys-
anthemums, a different color
scheme being carried out in each
room. The hostess was very hand-
some in blue taffeta and with
her in the receiving line were
the house guests: Mrs. Asa Kidd,
of Clark county, Mrs. Cecil
Parks, of Winchester, Mrs. Ol-
lie Hadden and Miss Ruth Rob-
erts, of Frankfort, the guest of
Mrs. Badger Robertson.

Mrs. Robert Vanarsdell and
Mrs. Badger Robertson marked
the progressions and following
many interesting games a most
delicious and appetizing lunch
of an ice and substantial was
served the forty-five guests who
enjoyed the delightful hospitali-
ty of Mrs. Turner.

TO BE MARRIED IN NOVEMBER

Mr. and Mrs. William S. Lloyd

SPARE MOMENTS

What do you do with your
spare moments? Do you use
them to better yourself, or do
you use them for a good time?

You have ambitions, every in-
telligent person has. Why don't
you show the world what you can
do? Are you waiting for some-
thing to turn up that will give
you promotion? That is mighty
uncertain. You may be waiting
thirty years from now for some-
thing to turn up and your best
days are past. Then what will
you do when you realize your
life has been a failure? When
you go down the street look
around and you can see examples
of people who have been wait-
ing for something to turn up.
Ask them and they will tell you
where they made their mistakes.

Make use of your spare mo-

TEXAS BEEF FOR

NEW YORK

New York's Food Supply Commission, which has been devising ways and means of getting cheaper food for the consumers in America's largest city, has announced a promising movement in the interest of better beef prices.

An organization of Texas cattle men has been perfected at Galveston for the purpose of shipping beef direct to New York. The Texas men will slaughter their cattle at Galveston and will send the beef to New York on refrigerator steamships. These steamers, which are to operate regularly beginning in January, will carry supplies of meat to be sold directly to retail dealers. When the shipments begin it is expected that they will be followed by a cut of several cents a pound in the price of meat.

Until recently the Texas cattle men have never been able to send their meat to the East without it falling into the hands of the Beef Combine. Recently a concern which has been packing and canning meat under a new process at Galveston has succeeded in establishing connection with retailers in New York, and has built up a successful shipping business. It is estimated that there are 8,000,000 cattle along the Gulf coast of Texas, and the cattle owners believe they can slaughter their own beef and sell directly to retail dealers in New York to mutual advantage.

Of course, the consumers ought to profit by this arrangement, which will put them in closer connection with the producers than heretofore. The plan is not impractical, and its success depends chiefly on the effectiveness of the cattle owners' organization and the executive ability of those who are placed in charge of the enterprise. New York retailers ought to welcome an opportunity to buy beef direct from the beef country and to make prices a little bit more easy for their patrons. The retailer in this instance would represent the only middleman between producer and consumer—a distinct advantage over present conditions from the consumer's point of view.

CLASSIFICATION OF EGGS

The Housewives' League of Cincinnati has been endeavoring to induce the Produce Exchange of that city to do away with the quotation of "prime firsts" as an egg classification.

The League has expressed the belief that most of the eggs received in Cincinnati are below the grade of "prime firsts." It also believes it would be able to buy eggs cheaper through a direct route if the exchange would quote the lower grades only. This all seems reasonable, but the exchange holds to the position that the farmer or shipper who takes the right sort of care of his eggs should be paid for it, while on the other hand those who are careless should be paid according to the value of their product.

Probably the most effective way to improve the quality of egg production is to put a premium upon the efforts of those farmers and shippers who take extraordinary pains to deliver a first-class product. But the average consumer is a rather poor judge of eggs. So far as appearances go, "prime firsts" do not differ greatly from eggs of other grades. And what is the consumer to do when he buys what he supposes to be "prime firsts" and find that the eggs do not fit the classification?

There seems to be nothing more difficult in connection with the market question than to secure absolutely good eggs through the ordinary channels of trade. The consumer would be perfectly willing, in most instances, to pay a small bonus for such a product. The trouble is that classifications do not amount to much, and that assurances of fresh eggs, "prime firsts," candled eggs and the like cannot be relied upon by the purchaser. Wherefore the only sure plan of getting fresh eggs is to keep a flock of hens or to order from a reliable source by parcel post.

Treasury Department
Office of Comptroller of the Currency

Washington, D. C., Sept. 8, 1914.
Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that "The Mt. Sterling National Bank," located in the City of Mt. Sterling, in the County of Montgomery and State of Kentucky, has complied with all the provisions of the Act of Congress "to enable National Banking Associations to extend their corporate existence, and for other purposes," approved July 12, 1882, as amended by the Act, approved April 12, 1902;

Now, therefore, I, John Skelton Williams, Comptroller of the Currency, do hereby certify that "The Mt. Sterling National Bank," located in the City of Mt. HOG CHOLERA IN KENTUCKY

The present situation with reference to hog cholera in Kentucky offers great encouragement in the successful control of this disease, but it must not be understood that any effort to combat same should be dropped. Farmers are urged to continue their fight against hog cholera as the infection is present in many scattered localities through the state, and might become disastrous if due precautions are not observed. Great stress is laid upon prophylactic measures at this time. It is suggested by the authorities at the Kentucky Experimental Station that the strictest sanitary precautions be observed by every swine owner in order to ward off this disease. A little applied prevention is very valuable at this moment and may serve to hold off the disease.

Literature pertaining to hog cholera eradication can be secured, free of charge, from the Experimental Station, containing timely suggestions and methods employed. Every farmer must familiarize himself with the most revised methods of combating this disease in order to successfully avoid it. This includes a thorough knowledge of the cause of hog cholera and the method by which it is spread, all of which are essential in order to successfully and intelligently prevent the disease. It is of prime importance that farmers employ the methods herein outlined. The so-called hog cholera cures and preventives so plentiful on the market should be discarded. These substances so conspicuously advertised are a needless drain on the farmer, the results of which are not beneficial in preventing or curing hog cholera. If the money expended for fake cures were used to purchase disinfectants, to erect a hog house, to secure better water supply, etc., the returns would be far greater and more profitable to the owner.

The leading agricultural papers are refusing space to the promulgators of mysterious cures, and their discrimination against such products is a great protection to the farmer. In the control of any infectious disease sanitation is of primary importance and there is no medical substance which will correct conditions resulting from improper feeding, insanitary quarters, poorly ventilated hog houses, etc. Hog cholera serum can be purchased at the Experimental Station.

Published fact that hog cholera is the only important infectious disease of swine at the present time. Every hog raiser should be thoroughly informed on this subject, and the Experimental Station will gladly furnish advice and information in so far as possible to all applicants.

Loss of Appetite.

Is the first signal of disorder and decay. The usual loss of appetite is often caused by functional disturbances in the stomach. The stomach fails to do the work required, the appetite is gone, and the body suffers from lack of nourishment. Such a stomach needs to be cleaned and sweetened. Meritol Tonic Digestive is made especially to assist the stomach to digest food, and promote a healthy appetite. This remedy is sold on our positive guarantee, and we ask you to give it a trial. It is a genuine tonic. Price \$1.00.

Concrete's the thing—Lehigh's the Cement.

Name It! Lehigh's the Answer

Name any form of construction that you contemplate building and we will give you the answer—Lehigh Portland Cement Concrete.

It is unequalled for homes, sidewalks, fence posts, gates, porches, barns, silos, feeding troughs, garden furniture and a hundred other forms of building.

But the big Lehigh fact is—it will increase in strength as it grows older. Each year a Lehigh structure has greater power to withstand the wear and tear of the elements. It is a guarantee against depreciation and upkeep.

We have Lehigh on hand. We have a lot of suggestions for concrete building you ought to know. Ask us today. For the next thing you build—use Lehigh.

FARM-TO-CITY

PARCEL POST

Last March ten cities in the United States were especially designated by the Post Office Department for trying out the parcel post as a medium of exchange between producers and consumers.

Postmaster General Burleson has made public reports from these cities. The reports are generally favorable and Mr. Burleson says they demonstrate that the farm-to-city service has come to stay. In some localities the system has become a potent factor in reducing the cost of living. In a few instances the producers are preventing the expansion of the service by asking too much for their products. There is some complaint of damage to shipments though the average of such damage is exceedingly small.

A summary of the report from the ten cities is interesting. The postmaster at Atlanta says the service has grown rapidly and has compelled the express companies to make better rates and improve their facilities. During the summer the post office handled an average of 100 farm-to-city parcels a day. The postmaster at Birmingham reports an average of seventy-five such parcels a day and says the service is looked upon with general favor. The postmaster at San Francisco predicts the new service "will become an important factor in the commerce of California."

Lynn, Mass., reports a weekly average of 250 parcels of farm produce. The postmaster at Boston thinks the plan is a success and is of great benefit. The postmaster at Washington says there has been an increase of 75 per cent in the receipts of farm produce. The postmaster at Baltimore reports that he is receiving from 90 to 100 parcels of farm produce daily. He gives two reasons why the growth of the system is hampered. Housekeepers he says, prefer to see farm produce before purchasing and have found that the producers expect to sell at the middleman's prices, thus eliminating the inducement of economy. The producers fear the uncertainty of payment and object to the cost and trouble.

During May and June the postmaster at St. Louis handled nearly 10,000 packages of produce. He says the service is "a popular and useful adjunct to the marketing facilities of St. Louis." The two smallest cities in the list, LaCrosse, Wis., and Rock Island, Ill., send in the least favorable reports. The postmaster at LaCrosse thinks the plan "will have a tendency to keep local prices right." The postmaster at Rock Island says: "Until the producer and consumer can be educated to the necessity of sharing the middleman's profit with one another the system will not meet with success."

The action of the Post Office Department in extending the campaign to other cities shows that it is pleased with the results so far obtained.

FARM FACTS

He who plows can produce anything, including health and happiness.

The magic influence of the plow will make a desert bloom and blossom.

The problems of farming are as serious as the multiplication tables.

Successful farming and marketing are the basis of all human progress.

Farming is successful only when the crops have been profitably marketed.

Good roads broaden our sympathy, lessen distance and increase our usefulness.

It's the man who really counts in farming. Fertile land is necessary, but a master mind must solve the problems of production and marketing.

ABSOLUTELY THE BEST.

Kit Carson's Buffalo Ranch Big Three-Ring Wild West Circus, the Most Wonderful of All Exhibitions, Coming.

To suit the young and the old the modern exhibition must combine education with amusement and present something that will make a lasting and a favorable impression on the public. Owing to the rapid disappearance of the Indian and the astonishing advance of the west towards civilization, the history of that large and important portion of our country is yet an unwritten book to thousands of our people.

The Kit Carson Buffalo Ranch Big Three-Ring Wild West Circus faithfully reproduces life on the frontier, showing Indian sports and warfare, the skill of the Cowboy with six shooter, lasso and pony, the discipline and training of the western girl, the clever work of the bolas throwers of the South American plains, the Arabs in their wonderful riding and shooting, the Mexicans as marksmen and horsemen, the Cossacks of the Russian steppes and the innumerable other features of this unsurpassed entertainment.

The military tournament introduced is something never equalled either in magnitude or picturesqueness. Engaged in it are Famous American Zouaves, U. S. Cavalry, English, German, French and Mexican soldiers and many other interesting people who will be strangers to many hundreds who see them here.

Kit Carson's Buffalo Ranch Big Three-Ring Wild West Circus will have five bands of music, the most famous of which is the cowboy band. The great street cavalcade will be witnessed by thousands on day of exhibition. Excursion trains will arrive throughout the morning and our city will have on her gala dress.

Impress the date of exhibition on your mind. Will exhibit at Mt. Sterling on Saturday, October 17, afternoon and night.

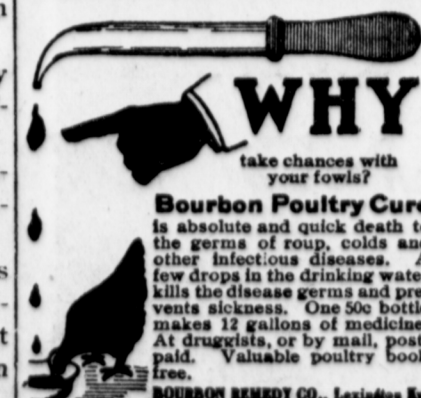

Distance may lend enchantment which hath its charm—but a maid in the hand beats it by more'n a mile.

Russia is bound to be the material winner at the close of this war. Russia is the only one of the five nations of Europe engaged in war that is self-supporting in the matter of foodstuffs. It has an area of nine million square miles or three times that of the United States. The Manufacturer's Record points out that the distance across Russia from its western to its eastern confines is about 9,000 miles or 3 times the distance from New York to San Francisco. Russia cannot be bottled up. To destroy Napoleon and his armies Russians applied the torch to their own cities. Their czar is the god-head and the king-head. His soldiers follow blindly and execute his orders.

Trade Edition.

The merchants and business men of nearly every city of any size in Virginia and West Virginia get out a Trade Edition twice a year boosting the advantages of their cities and the merits of the merchandise sold in them.

Mt. Sterling not having had an edition of this character for many years, Mr. W. C. Hager, of Huntington, W. Va., has decided to put out an Autumn Trade Edition just prior to Thanksgiving. Being a specialist in his line this edition is sure to be quite an impetus to business and the publicity given the city very beneficial. Every business and professional man in the city and county should be represented in this edition.

The Lot Sale.

We wish to call our readers attention to the Oldham lot sale of the Bigstaff Addition and especially to the liberal terms on which the lots will be sold.

The addition is located in one of the best residential sections of our city and if you have any idea of building a home in the next few years you should attend this sale. Lots close to the business section are very scarce and you will make no mistake in buying one or more of these handsome lots.

CITY SCHOOL NOTES

The Mt. Sterling Advocate has kindly consented to publish each week such news concerning school activities as may be of interest to the public and we desire to express our appreciation of this kindness.

We hope that this column will prove to be of value to the Advocate, as well as interesting to its readers.

Julia Rodman
Russell De Haven,
Howard Van Antwerp,

Athletics.

(Russell De Haven.)

When the weather becomes chilly and the leaves turn many colors and begin to fall, then the school boy's mind turns to football. Only a few weeks of school had passed before a team was organized with Prof. Jetton as manager and practice began at once in earnest. The team hopes to make a good showing this fall. The Fair Grounds last Friday was the scene of the first game of the season, between County High School and City High School, the latter winning by the score of 13 to 0. Although County High School outweighed City High, the latter was never in danger of being scored against.

On Saturday, the team representing Mt. Sterling High journeyed to Lexington where they witnessed the defeat of Manual Training School of Louisville by Kentucky State Freshmen. There we saw our last year's star, Kelly in the uniform of the Freshmen. The purpose of this trip was to witness a good game and let each man see how his position should be played. We hope to see the team much improved thereby.

On Friday, October 16th, the Mt. Sterling High School will meet Paris High on Fair Grounds field. The team has been practicing hard and as both teams are evenly matched a good game is assured.

As the base-ball season is over, why not come out Friday and witness a good game of foot-ball?

The probable line-up for Friday's game is:

Center, Van Antwerp.
Right tackle, Blevins or Smathers
Left tackle, Kelly or Thomas.
Right Guard, Oldham.
Left Guard, Wyatt or Flood.
Right end, Coleman.
Left end, Robertson.
Quarter, Daniels.
Left half, De Haven.
Right Half, Nesbitt.
Full, Dale.

Literary Societies.

(Howard Van Antwerp.)

The Literary Society is considered by many educators a very valuable aid to the broadening-out process of modern education. In most schools there are two literary societies, but our own high school is an exception to the generally followed plan, there being only one (excluding the Freshman Society.) To secure the necessary spirit of competition a rather unique plan is used: the Society (consisting of some 60 members) is divided into four sections of fifteen members each. Each section has a program committee of its own, elected by the members, whose duty it is to provide a program of a number of literary selections from the members of their section, each section being responsible in turn for the entertainments of the society. This form of literary society is being given a thorough trial to determine whether or not it is better than other methods. However, if there are any patrons of the school who wish to see this plan in action they will always be welcome to the bi-monthly meetings on Friday afternoons. The next meeting of the "Purple and Old Gold" will be on October 23rd.

A beautiful line of Crane's correspondence cards and paper just received.

CROUP RELIEVED IN FIFTEEN MINUTES

No need to dose delicate little stomachs with internal medicines—apply **VICK'S Croup and SALVE** Well over throat and chest. In five minutes the breathing is easier and in fifteen minutes the worst cases are relieved. Croup can be prevented absolutely by an application of Vick's at bed-time covered with warm flannel. Absolutely harmless. Samples on request. At all druggists, 25c, 50c and \$1.00. Vick Chemical Co., Greensboro, N. C.

**THE POINT IS JUST THIS**

Is it better to skimp on your lumber now and spend liberally forever after or is it better to get the right kind of lumber at the start and make the first cost of your building the only one for years to come? If you are as sensible as we think you are we'll sell you your next lumber needed.
